

Drive In The Nature

C1 is a new generation Car Air Purifier which used the latest double fans air duct circulation system and bamboo fiber HEPA filter and designed to remove PM2.5, smoke, allergy, TVOC, Odor and also can remove bacteria and virus in the car room air. It has LCD display can real-time display the room air quality situation like PM2.5, temperature and humidity etc.

PM2.5
Formaldehyde
Pollen
Bacteria
Second-Hand
Smoke

PM2.5<10
Efficient area: up to 15 m²
5 million Negative ions
Sterilization rate: 99.9%
Real-time Display

1 Rapid purification only 3 minutes

Fresh every corner of your car in **3 minutes** and enjoy your driving moments. Two fans circulation system can quickly purify car room air

Drive In The Nature

CAR AIR PURIFIER-C1

2 Negative ions purification

The concentration of negative ions released is 10 times that of the forest. It can remove harmful gas and fresh air in the car, making you feel like driving in the forest.

3 Multilayer filtration

Activated carbon filter can effectively remove odor. Multi-layer filter can remove all kinds of harmful substance, including pollen, dust, dander, bacteria, virus.

4 3 Sides inlet

Patented new technology air duct system, 3 sides free air intake design, the nature real fresh air is quickly circle in the car, which can quickly complete air circulation.

5 Intelligent regulation

After the automatic mode is turned on, the purification level will be automatically adjusted according to the air quality.

6 App remote control

Product name	Car Air Purifier
Colour	Dark Red/ Silver White
Efficient area	up to 5.4 m ²
Particle CADR	45 m ³ /h
Sterilization rate	99.9%
Formaldehyde CADR	19.3 m ³ /h
Micro negative ions	5 million pcs/cm ³
power	DC 12V
Wattage	7W
Size	130 x 130 x 340 mm
Net weight	1.5 kg
Noise	< 60dB
